Favorite Toy _____

Stim Behaviors _____

*Are they afraid of dogs? Y N

Have they been lost before? _____

Where were they found? _____

Notes: _____

SCENT COLLECTION

Collect a **scent article** of your loved one, this can be;

- Hair collected from hairbrush,
- Article of clothing that has been **recently worn**, or
- Gauze pad with your loved one's scent (we collect from chest/tummy or behind the ear).

Preserve that scent article in an unscented plastic bag, and store with your loved one's **identification card** and **recent picture**.

- ➔ By having a **scent article** already made up with a **recent picture** attached, the **identification card** filled out and the “**What Do I Do**” card at hand you can increase the odds of a quick find substantially.

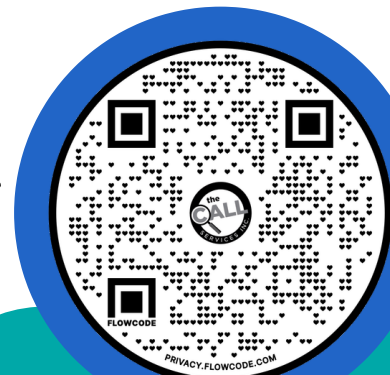

*Don't want to DIY? You can purchase Scent Preservation Kits on Amazon.

Learn more about what to do if your loved one goes missing or request our help on our website.
